Introduction

ICT in its many forms – internet, email, mobile devices etc. – are now part of our daily lives. It is our duty to ensure that they are used safely and responsibly.

This document has been developed to ensure staff within Twerton Infant School and Nursery are aware of their professional responsibilities when using ICT equipment and systems. All staff will follow the guidelines at all times.

You are responsible for your behaviour and actions when carrying out any activity which involves using ICT equipment and information systems, either within school or at other locations, such as home. ICT equipment and associated technologies include all facilities and resources used to access the school ICT network and internet as well as standalone devices with digital storage.

When using the school's ICT equipment and other information systems, I have understood and will comply with the following statements:

- I have read and understood the implications and my personal responsibilities in relation to the use of ICT equipment which is detailed within this policy.
- I will access the internet and other ICT systems using an individual username and password, which I will keep secure. I will ensure that I log out after each session and never allow other users to access the internet through my username and password. I will report any suspicion, or evidence that there has been a breach of my personal security in relation to access to the internet or ICT systems, to the Online Safety Leader.
- All passwords I create will be in accordance with the school Online Safety Policy. I will ensure that I use a suitably complex password for access to the internet and ICT systems and that I will use a unique password for each system.
- I will not share my passwords with any colleagues or pupils within school.
- I will seek consent from the Online Safety Leader (Headteacher) prior to the use of any new technologies (hardware, software, cloud-based services) within school.
- I will not search for, download, upload or forward any content that is illegal or that could be considered an offence by another user. If I encounter any such material I will report it immediately to the Online Safety Leader (Headteacher).
- I will take a professional and proactive approach to assessing the effectiveness of the internet content-filtering platform in relation to the educational content that can be viewed by the pupils in my care.
- I will not attempt to bypass any filtering and/or security systems put in place by the school. If I suspect a computer or system has been damaged or affected by a virus or other malware, I will report this to the ICT Manager / Online Safety Leader (as appropriate)
